

Dear Parents:

This is to inform you that your child's classroom plans to participate in *Real World Math*, a program and contest that asks our high school and junior high school math classes to think about how the math they learn in the classroom can be used in the real world, then create a video to illustrate an example. The prize for this contest is a classroom technology makeover for two math classrooms in the school district. This program is sponsored by Texas Instruments (TI), a provider of math education technologies, and TeacherTube, a Web site that provides teachers with educational content.

Please sign and return the below release form to enable your child's participation in this program.

As the guardian of a child in _____,
(Insert School District's Name)

I, _____, hereby agree, that my child,
(Insert Parent's Name)

_____, is permitted to participate in the
(Insert Child's Name)

Real World Math program. I further allow my child's likeness/image to be available on TeacherTube's Web site for the duration of this program and following the program's conclusion. To this end, I understand that at the discretion of my son/daughter's classroom teacher, my child's image will also be available for use on any program promotional materials produced following the initiative's conclusion.

Moreover, I agree that TI's use of my child's image will not result in an invasion of his/her privacy; and understand that I will not receive any additional consideration for the use of the photographs or comments.
