

Quiz II

Algebra 1

Answer the following using the three methods to solve an equation with the Graphing Calculator. Use each Method (Graph, Table, and Solver) at least once. State the method used, and document your use of it. You may use your notes and other papers that you have with you.

1. $8C = C + 14$

2. $7D = 3 - 2D$

3. $2(A - 3) = 5(A + 3)$

4. $N + N + 1 = 137$
