TI-Nspire and TI-Nspire CAS Technology

Have TI-Nspire technology or about to purchase? TI-Nspire learning technology includes handhelds, computer software and connectivity software. TI has a wide variety of resources and materials to support the use of the TI-Nspire technology.

Learn More ▶

TI-Nspire and TI-Nspire CAS Computer Software

TI-Nspire and TI-Nspire CAS software are great for creating files and documents. Teacher Edition software with built-in TI-SmartView™ emulator features a resizable emulated handheld device view that can be used for classroom presentations.

Learn More ▶

Operating System (OS) Upgrades

Register your TI-Nspire handheldand let TI keep you up to date with software upgrades and operating system (OS) downloads. Then, try **www.education.ti.com/latest** to find out the latest versions of software and operating systems that are available, and how to download them.

Register ▶

TI Connect-to-Class™ Computer Software

TI Connect-to-Class computer software provides document, file and data transfer between the teacher's computer and multiple students' TI-Nspire or TI-Nspire CAS handhelds simultaneously.

Learn More ▶

Computer Link Software

TI-Nspire Computer Link software allows you to connect a single handheld to a computer to share documents, data and screen images. The free software allows you to back up data from the handheld to computer storage, update handheld operating systems (OS) with downloads from the internet, and capture handheld screen images.

Interested in Professional Development and Training Resources?

TI-Nspire Summer Workshops

Looking for a TI-Nspire workshop or training event? Explore TI's Events Locator. Find any scheduled TI event by state, subject, keyword, proximity, product, or view events by month. Many TI-Nspire workshops are already on the calendar for summer 2009, so plan ahead. Check back often – new events are added on a regular basis.

Learn More ▶

Online Courses

How about a free T[3]™ Teachers Teaching with Technology online course to help get started with your new TI-Nspire product? Online courses are a convenient way to learn the functionality of TI products without having to travel long distances.
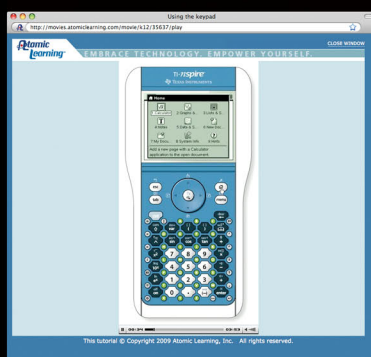

Learn More ▶

Online Tutorials

Try a free video tutorial to help you get started with TI-Nspire technology right away. They're easy to use and extremely helpful as you learn how to use your new handheld. There are also tutorials at this Web site for TI-Nspire and TI-Nspire CAS software.

Learn More ▶

Free Training

Getting ready to make a large purchase of TI-Nspire or TI-Nspire CAS handhelds? TI has a special training offer for you. Districts that purchase a total of 500 TI-Nspire or TI-Nspire CAS handhelds at the same time on or before September 20, 2009 will receive 3 days of professional development from TI at no charge. Purchase 750 handhelds and get 5 days of training – 1500 or more will receive 7 days of training – all at no charge. Contact your TI representative for additional details of this special purchase promotion.

Staff Development

Need customizable on-site staff development on the TI-Nspire handheld or other TI products? Try the T[3] Outreach Program. Tell us the specific type of training you need and we can refer a specially trained T[3] Instructor to contact you.
