

<b>Statements</b>	<b>Reasons</b>
Sciences cosine zero slope area range domain from context	Mathematics sine no solution derivative antiderivative domain from math rules

ambient condition	starting values – y-int
	C
x, y, d, s, t'	y-intercept/roots/
x-intercept	zeros
	-4 < -3
-4 > -3	Regression
Linearize	Quadratic
Parabola	X Axis
Horizontal Axis	$\frac{m}{s^2}$
m/s/s
