Nspired Learning Event

“Experience Nspired Learning” Hosted by Texas Instruments during Sessions 4 and 5

Who: All Conference Participants are Invited

What: Hands-on “Mini-Workshops” featuring the latest innovative technology from TI and DLP; the opportunity to win exciting door prizes including TI Nspires, the TI Nspire Teacher Edition Software and Data Collection Devices.

Where/When: January 22, 2011 Auxiliary Gym/ 11:00 AM-1:50 PM

Why: Network with Colleagues, Learn about TI Technology, and Have Fun!

Here’s how it works:

As the first step, Participants should complete green information cards found at the center tables. Participants must provide complete contact information on the card.

Bring your card to each of the four Mini Workshop Stations and complete the hands-on activities. You may start at any station.

TI and Clark County Staff will stamp the cards to indicate completion of each task. Participants turn in completed cards to host.

Each participant who receives the four stamps on his/her card will receive a Math Rocks or Science Rules Poster and will be entered into the exciting Door Prize Drawings going on throughout the event!
